## APPENDIX D

### FUNDING SOURCES

This listing of funding sources was derived from the May 1999 *Watershed Action Guide for Indiana*, which is available from the Watershed Management Section of IDEM (IDEM 1999b).

#### FEDERAL CONSERVATION AND WATERSHED PROGRAMS

##### Environmental Protection Agency

##### Section 319, 205(j), and 104(b)(3) Grants

Grants for conservation practices, water body assessment, watershed planning, and watershed projects. Available to non-profit or governmental entities. These monies, enabled by the Clean Water Act, are funneled through the Indiana Department of Environmental Management. *For details see IDEM below.*

##### EPA Great Lakes Program

Numerous sources of funding are available for the area that drains into the Great Lakes. The complete grants guidance and application package for EPA Great Lakes grants is on the web, and additional funding sources are at the Great Lakes Information Network (<http://www.great-lakes.net/>). Grants are submitted in early spring for most of these sources.

U.S. Department of Agriculture/Natural Resources Conservation Service (NRCS) (See Appendix C for local federal agency contacts.)

##### CRP: Conservation Reserve Program.

Administered by the Farm Service Agency with technical assistance from NRCS. Conservation easements in certain critical areas on private property. CRP encourages farmers to convert highly erodible cropland or other environmentally sensitive acreage to vegetative cover, such as tame or native grasses, wildlife plantings, trees, filterstrips, or riparian buffers. Easements are for 10 or 15 years, depending on vegetative cover, and compensation payments are made yearly to replace income lost through not farming the land. Cost share is available for planting vegetative cover on restored areas. <http://www.fsa.usda.gov/dafp/cepd/crp.htm>

##### EQIP: Environmental Quality Incentive Program.

Administered by the NRCS. Provides technical, financial, and educational assistance. Conservation cost-share program for implementing Best Management Practices, available to agricultural producers who agree to implement a whole-farm plan that addresses major resource concerns. Up to \$50,000 over a 5- to 10- year period. Some parts of the state are designated Conservation Priority Areas and receive larger funding allotments.

<http://www.nhq.nrcs.usda.gov/PROGRAMS/COD/cit/eqipsmry.htm>

##### FIP: Forestry Incentive Program.

Administered by the NRCS. Assists forest management on private lands of at least 10 acres and no more than 1,000 acres. Eligible practices are tree planting, timber stand improvement, site preparation for natural regeneration, and other related activities. Land must be suitable for conversion from nonforest to forest land, for reforestation, or for improved forest management and be capable of producing marketable timber crops. Cost share up to 65%, with a maximum of \$10,000 per person per year. <http://www.nhq.nrcs.usda.gov/CCS/FB96OPA/FIPfact.html>

##### Small Watershed Program.

The Small Watershed Program works through local government sponsors and helps participants solve natural resource and related economic problems on a watershed basis. Projects include watershed protection, flood prevention, erosion and sediment control, water supply, water quality, fish and wildlife habitat enhancement, wetlands creation and restoration, and public recreation in watersheds of 250,000 or fewer acres. Both technical and financial assistance are available.

<http://www.ftw.nrcs.usda.gov/pl566/pl566.html>

##### WRP: Wetland Reserve Program.

Administered by the NRCS. Easement and restoration program to restore marginal agricultural land to wetland. Easements may be for 10 years, 30 years, or permanent. Longer easements are preferred. Partnerships with other acquisition programs are encouraged. Restoration and legal costs are paid by NRCS. Landowner retains ownership of the property and may use the land in ways that do not interfere with wetland function and habitat, such as hunting, recreational development, and timber harvesting.

<http://www.nhq.nrcs.usda.gov/PROGRAMS/wrp/>

##### WHIP: Wildlife Habitat Incentive Program.

Administered by the NRCS. Cost share and technical assistance to develop and improve wildlife habitat on private land. Private landowners who are agricultural producers are eligible. A wildlife habitat plan is developed that describes landowner's goals for improving wildlife habitat, includes a list of practices and schedule for installing them, and details the steps necessary for maintenance. Cost share up to 75%, and contracts are for 10 years. <http://www.nhq.nrcs.usda.gov/PROGRAMS/whip/>

U.S. Fish & Wildlife Service

## Sugar Creek Watershed Restoration Action Strategy

### Partners for Wildlife Habitat Restoration Program

Provides technical and financial assistance to private landowners through voluntary cooperative agreements in order to restore formerly degraded wetlands, native grasslands, riparian areas, and other habitats to conditions as natural as feasible. Landowners agree to maintain restoration projects as specified in the agreement but otherwise retain full control of the land. Agreements are for fixed term of at least 10 years. No more than 60% of project cost is paid by Federal moneys (the program seeks remainder of cost share from landowners and nationally-based and local entities). <http://www.fws.gov/>

### STATE CONSERVATION AND WATERSHED PROGRAMS

#### IDNR Division of Soil Conservation

##### LARE: Lake & River Enhancement Program

Funds diagnostic and feasibility studies in selected watersheds and cost-share programs through local Soil & Water Conservation Districts. Project oversight provided through county-based Resource Specialists and Lake & River Enhancement Watershed Coordinators. Funding requests for Watershed Land Treatment projects must come from Soil & Water Conservation Districts. If a proposed project area includes more than one district, the affected SWCDs should work together to develop an implementation plan. The SWCDs should then apply for the funding necessary to administer the watershed project. Before applying for funding, the SWCDs should contact the Lake & River Enhancement Coordinators to determine (1) the appropriate watershed to include in the project, (2) if the proposed project meets the eligibility criteria, and (3) if funding is available.

<http://www.in.gov/dnr/soilcons/lare.htm>

#### IDNR Division of Fish & Wildlife

##### Classified Wildlife Habitat Program

Incentive program to foster private wildlife habitat management through tax reduction and technical assistance. Landowners need 15 or more acres of habitat to be eligible. IDNR provides management plans and assistance through District Wildlife Biologists (see county listings). <http://www.ai.org/dnr/fishwild/about/habitat.htm>

#### IDNR Division of Forestry

##### Classified Forest Program

Incentive program to foster private forest management through tax reduction and technical assistance. Landowners need 10 or more acres of woods to be eligible. IDNR provides management plans and assistance through District Foresters (see county listings). <http://www.state.in.us/dnr/forestry/landassist/clasfor.htm>

##### Classified Windbreak Act

Establishment of windbreaks at least 450 feet long adjacent to tillable land. Provides tax incentive, technical assistance through IDNR District Foresters.

##### Forest Stewardship Program & Stewardship Incentives Program

Cost share and technical assistance to encourage responsibly managed and productive private forests.

<http://www.state.in.us/dnr/forestry/htmldocs/grants.htm>

#### IDNR Division of Reclamation

##### Appalachian Clean Streams Initiative

Funds for acid mine drainage abatement.

#### IDNR Division of Nature Preserves

##### State Nature Preserve Dedication

Acquisition and management of threatened habitat. <http://www.in.gov/dnr/naturepr/>

#### IDEM Office of Water Quality

##### State Revolving Fund

Available to municipalities and counties for a range of water quality infrastructure projects. Funds are available for a wide variety of projects including all types of nonpoint source management projects, as well as more traditional wastewater treatment projects. Funding is through very low-interest loans. <http://www.in.gov/idem/water/fasb/srflp.html>

##### Section 319 Grants - Nonpoint Source Program

Available to nonprofit groups, municipalities, counties, and universities for implementing water quality improvement projects that address nonpoint source pollution concerns. Twenty-five percent match is required, which may be cash or in-kind. Maximum grant amount for local watershed projects is \$112,500, but statewide or larger scale projects may be funded up to \$300,000. Projects are usually two to three years in length. Projects may be for land treatment through implementing Best Management Practices, for education, and for developing tools and applications for state-wide use. Proposals are due October 1, 2002 for FY2003 funds. See Section 5.1.5 for more details. <http://www.in.gov/idem/water/planbr/wsm/index.html>

##### Section 205(j) Grants - Water Quality Management Planning Program

Available to municipalities, counties, conservation districts, drainage districts, and other public organizations. For-profit entities, non-profit organizations, private associations, and individuals are not eligible for funding through Section 205(j). Grants are for

## Sugar Creek Watershed Restoration Action Strategy

water quality management projects such as studies of nonpoint pollution impacts, nonagricultural NPS mapping, and the development and implementation of watershed management projects. Funds can be requested for up to \$100,000 and no match is required. <http://www.in.gov/ideM/water/planbr/wsm/index.html>

### Section 104(b)(3) Grants - NPDES Related State Grant Program

Provide for developing, implementing and demonstrating new concepts or requirements that will improve the effectiveness of the NPDES permit program. A project proposed for assistance by this program should deal predominantly with water pollution sources and activities regulated by the NPDES program. These may include innovative demonstration projects to promote statewide watershed approaches for permitted discharges, development of storm water management plans by small municipalities, projects involving a watershed approach to municipal separate sewer systems, and projects that directly promote community based environmental protection. Available to State water pollution control agencies, interstate agencies, Tribes, colleges and universities, and other public or nonprofit organizations. For-profit entities, private associations and individuals are not eligible to receive this assistance. Funds can be requested for up to \$100,000. Five percent match is required, either cash or in-kind. <http://www.in.gov/ideM/water/planbr/wsm/index.html>

NOTE: proposals are due to IDEM by January 31 annually for projects beginning the following December.

### PRIVATE FUNDING SOURCES

#### National Fish and Wildlife Foundation

1120 Connecticut Avenue, NW Suite 900, Washington DC 20036. ([http://www.nfwf.org/programs/grant\\_apply.htm](http://www.nfwf.org/programs/grant_apply.htm))

Nonprofit, established by Congress 1984, awards challenge grants for natural resource conservation. Federally appropriated funds are used to match private sector funds. Six program areas include wetland conservation, conservation education, fisheries, migratory bird conservation, conservation policy, and wildlife habitat.

#### Individual Utilities

Check local utilities such as IPALCO, CINergy, REMC, NIPSCO. Many have grants for educational and environmental purposes (IPALCO Golden Eagle Program - [http://www.ipalco.com/ABOUTIPALCO/Environment/Golden\\_Eagle/2001\\_Winners.html](http://www.ipalco.com/ABOUTIPALCO/Environment/Golden_Eagle/2001_Winners.html); CINergy - <http://www.cinergy.com/Environment/default.asp>).

#### Indiana Hardwood Lumbermen's Association

Indiana Tree Farm Program. <http://www.ihla.org/leaders.htm>

#### Conservation Technology Information Center (CTIC)

'Know Your Watershed' educational materials are available. <http://www.ctic.purdue.edu/CTIC/CTIC.html>

## APPENDIX E

### Superfund (CERCLA) Site Fact Sheets

for sites listed within the Sugar Creek watershed.

### **WEDZEB ENTERPRISES, INC.**

#### Site Information:

**Site Name:** WEDZEB ENTERPRISES, INC.  
**Address:** 320 SOUTH BALLARD STREET  
LEBANON, IN 46052

**EPA ID:** IND980794374  
**EPA Region:** 05  
**County:** 011 BOONE

**Latitude:** +40.045300  
**Longitude:** -086.472300

**NPL Status:** Deleted from the Final NPL

**Non-NPL Status:**

**Federal Facility Flag:**

Not a Federal Facility  
Manufacturing Plant

**Incident Category:**

#### Record of Decision (ROD) List:

	ROD ID	ROD Date	OU
<b>1</b>	<a href="#"><u>EPA/ROD/R05-89/097</u></a>	06/30/1989	
01			

#### 1) Record of Decision (ROD):

**Operable Unit:** 01

**ROD ID:** EPA/ROD/R05-89/097

**ROD Date:** 06/30/1989

**Media:** SEDIMENT

**Contaminant:** PCBS

**Abstract:** THE 0.75-ACRE WEDZEB ENTERPRISES SITE IS LOCATED IN LEBANON, INDIANA, IN A MIXED RESIDENTIAL AND LIGHT INDUSTRY NEIGHBORHOOD. ABOUT 300 HOUSES ARE LOCATED WITHIN 500 FEET OF THE SITE PERIMETER. ORIGINALLY, TWO WAREHOUSES, ONE OF WHICH WAS USED AS A STORAGE FACILITY FOR ELECTRICAL CAPACITORS AND TRANSFORMERS CONTAINING POLYCHLORINATED BIPHENYLS (PCBS), WERE LOCATED ON SITE. IN MAY 1981 THE WAREHOUSE USED FOR STORAGE WAS

COMPLETELY DESTROYED BY FIRE, WHICH RAISED CONCERNS ABOUT THE RELEASE OF PCBS INTO THE ENVIRONMENT AND THE POTENTIAL FORMATION OF NEW COMPOUNDS SUCH AS DIOXINS AND FURANS. THE WAREHOUSE CONTAINED AN ESTIMATED 77 TONS OF ELECTRICAL CAPACITORS AT THE TIME, SOME OF WHICH EXPLODED DURING THE FIRE. IN OCTOBER 1987 EPA COMPLETED A REMOVAL ACTION REMOVING ONSITE DEBRIS AND CONTAMINATED SOIL AND REPLACING IT WITH CLEAN FILL. THE REMEDIATION OF THE SANITARY SEWER SEDIMENT IN THIS ACTION SERVES AS A CAUTIONARY MEASURE BECAUSE CONTAMINANTS MAY HAVE BEEN WASHED INTO THE SEWER LINES DURING THE FIRE, PROVIDING A SOURCE OF LONG-TERM CONTAMINANT RELEASE TO THE LEBANON PUBLICLY-OWNED TREATMENT WORKS (POTW). THE PRIMARY CONTAMINANTS OF CONCERN AFFECTING THE SEWER SEDIMENT ARE PCBS.

THE SELECTED REMEDIAL ACTION FOR THIS SITE INCLUDES CLEANING THE SEWER LINES WITH HYDRAULIC JETS AND VACUUM PUMPING TO REMOVE CONTAMINANTS, FOLLOWED BY FILTERING THE RESULTING WATER AND SEDIMENT TO REMOVE PCB-CONTAMINATED SEDIMENT, AND DISCHARGING THE WATER TO THE POTW; OFFSITE INCINERATION AND DISPOSAL OF THE ESTIMATED 2 DRUMS OF SEDIMENT AND 20 DRUMS OF REMEDIAL INVESTIGATION GENERATED WASTE IF PCB LEVELS ARE 50 MG/KG OR GREATER, OR OFFSITE DISPOSAL ONLY IF PCB LEVELS ARE BELOW 50 MG/KG; AND A TELEVISION INSPECTION OF THE PIPELINE TO ENSURE STRUCTURAL INTEGRITY. THE ESTIMATED PRESENT WORTH COST FOR THIS REMEDIAL ACTION IS \$45,000; THERE ARE NO O&M COSTS.

**Remedy:** THIS FINAL REMEDY ADDRESSES THE PRINCIPAL THREAT POSED BY THE SITE BY REMOVING CONTAMINATED SEWER SEDIMENTS AND DISPOSING OF THEM OFF-SITE. THE REMEDIAL INVESTIGATION (RI) FOUND THAT PREVIOUS REMOVAL ACTIONS WERE ADEQUATE TO PROTECT HUMAN HEALTH AND THE ENVIRONMENT, AND THAT POTENTIAL RISK DOES NOT EXCEED U.S. EPA'S ACCEPTABLE HEALTH RISK RANGE AT THE SITE FOR GROUNDWATER, SOILS, AND WAREHOUSE SURFACES. THEREFORE, NO FURTHER ACTION WILL BE TAKEN FOR THESE MEDIA. REMEDIATION OF THE SANITARY SEWER SEDIMENTS SERVES AS A CAUTIONARY MEASURE AGAINST POTENTIAL FUTURE RELEASES FROM THE CONTAMINATED SEWER LINE TO THE LEBANON TREATMENT PLANT.

THE MAJOR COMPONENTS OF THE SELECTED REMEDY INCLUDE;

- \* SEWER PIPE CLEANING VIA HYDRAULIC JETTING AND VACUUM PUMPING TO REMOVE CONTAMINANTS.
- \* INSPECTION OF THE SEWER PIPE.
- \* INCINERATION OF CONTAMINATED SEDIMENTS.
- \* FILTER SEWER SEDIMENTS AND DISCHARGE CLEAN WATER TO PUBLIC OWNED TREATMENT WORKS (POTW).
- \* REMOVE AND DISPOSE OF RI GENERATED WASTES.

## **APPENDIX F:**

### **STAKEHOLDER COMMENTS**

The following comments were received within the 60-day public comment period after the initial public meeting introducing the draft version of the Sugar Creek WRAS. This meeting was held on March 20, 2002, in Crawfordsville, Indiana. The public comment period ended on May 20, 2002.

The Sugar Creek WRAS has been revised to incorporate stakeholder comments, where appropriate. The following is a reproduction of the stakeholder comments:
